I want to …

log in to the system

add new material and edit and delete existing material from the database

add new patrons and edit and delete existing patrons from the system

check material out to patrons

check in returned materials and

search the library's collection of materials

search the library's patron database

search the library's collection of materials

manually run an overdue report when needed

have the system run a nightly overdue process to automatically notify users by

collect fines from patrons and credit their accoutns

see the library email and phone number

see the hours the library is open

see a map of the library location

log in to the system

veiw my personal information and edit my phone number and email address

change my current login password or recover a forgotten password

view the items I have checked out

search the library's collection of materials

place a reservation on materials currently checked out

manage reservations

view and pay my fines online

recall checkedout material at the end of the current borrowing period

add, delete and edit items in my "wishlist"

renew twice, items I currently have checked out

log in to the system

add new librarians and edit and delete existing librarians from the system

do everything a librarian can do

update hours and contact information on the web site

add, edit, and delete material types

"pre-apply" for a library card

approve applications submitted over the Internet

so that…
I can access features only available to librarians
I can keep our inventory of material current for patron use
I can keep our active patron list up to date so they can check out materia
patrons can use items in our collection
the item is marked available and shelved for future patron use
I know if the library has an item and its availability, view details abou the
I know if the person has a valid library card, view details about the patror
I know if the library has an item, if it is available for loans, and view detail

patrons know what itmes are due in 2 days, 1 day, today and which items
patrons can pay their fines in cash at the library
I can have easy access for contacting the library with questions or concer
I know when I can visit to check out materials
if I am new to the area I can find the library
I can view information about my account
I can be sure my address, phone and email are current
I don't have to contact the library for assistnace with maintaining my acco
I remember which items I am responsible for and their due dates.
I know if the library has an item, if it is availble for loan, and view details a
when the item is returned, I will be notified and can check it out.
I know the list of patrons that have a spefic title reserved
my account is not restricted
patrons cannot renew items that are needed back in the library
I have a list of materials that I would like to check out when I visit the libr
I can keep the items longer without incurring a fine.
I can access features only available to super librarian
I can give employees the access they need to do their job
I can funtion as a regular libraian in addition to my duties
I can keep the information current for users to access
I can update different mateiral types as the library acquires new items.
all of their information is already in the system and will make for a quicke
